MASSACHUSETTS' GOVERNOR HERE

Distinguished Party of New Englanders Spending Several Days in Town and on Battlefield. Dedicated Monument.

Governor Eben S. Draper, of Massachusetts together with a large number of prominent Massachusetts state officials and their wives, constitute a party of distinguished visitors who are spending several days here. They arrived this morning in their private train over the Western Maryland from the South, having been away on a two weeks' trip through Southern states.

The principal object of the trip was the dedication of Massachusetts' monument at Baton Rouge, Louisiana, to the officers and men of that state in the Department of the Gulf who fell while fighting during the Civil War. The party left Boston on Tuesday of last week and on their trip have visited the following places: Washington, Mobile, New Orleans, Baton Rouge, Vicksburg, Chattanooga, and Luray. They will return by way of Philadelphia. The party is in charge of H. Y. Darnell, tourist agent of the Pennsylvania Railroad.

The distinguished party are loud in their appreciation of the cordial and hospitable reception which they received at the hands of the people of the Southern states. Everywhere they went there were evidences on all sides of the friendly spirit manifested by the Southerners and it has been one of the most pleasant features of the entire trip.

Among the prominent members of the party are Governor Eben S. Draper, General Charles H. Taylor, Charles D. Sias, General W. H. Bigham, Hon. S. Cole, Hon. W. S. Glidden, Hon. A. T. Treadway, Hon. Joseph Walker, Col. Tolbert, Major P. S. Sears, Major T. Aldrich, Lieutenant F. H. Hinkle, Sergeant J. M. Humewell, Col. E. P. Stanwood, Captain D. T. Remington, Hon. D. E. Denny, Hon. William Trebble, Hon. J. H. Hubbard, Hon. L. Burnham, General J. H. Whitney. The tourists are registered at the Eagle Hotel and will remain here until Saturday afternoon. They were taken over the field by Captain Long in Holtzworth Brothers' teams.

LINCOLN'S CAR AT SEVEN STARS

Car which Brought Martyr President Here Forty Six Years ago now being Used by Gang of Workmen Laying Rails at Seven Stars.

Forty six years ago today Abraham Lincoln delivered his world famous address at the dedication of the National Cemetery and today the car in which he came to Gettysburg is being used near Seven Stars by the Western Maryland railroad gang for sleeping quarters.

The car is an old time combination passenger and baggage affair and for many years was used on the road between Hanover and Hanover Junction.

Lately it was transferred to the Western Maryland gang which lays rails along the line and by a singular coincidence is today within a few miles of Gettysburg, to which place it brought the famous visitor forty six years ago.

The number of Gettysburg people who remember the visit of Lincoln and his memorable address is by no means small and as the years go by the speech is becoming more famous. The leading magazines this month contain a number of articles on the visit of Lincoln and his address. The reference to his visit made at the time of the camp fire held when the Loyal Legion were in Gettysburg several weeks ago is fresh in the memory of many town people and today there are not a few who are talking of the incidents of forty six years ago.

TARANTULA IN THE MAIL

Clerks in Dead Letter Office in Panic Over a Gigantic Spider.

Washington, Nov. 19.—The dead letter office of the postoffice department belied its name when a tarantula threw the clerks into a frenzy that for a moment threatened to become a stampede.

The trouble started when J. E. Davis, an experienced clerk in the opening of suspicious mail, tore the cover from a mysterious looking package addressed to "Dott Huggero Verity, via Leon V. Vireno, Florence, Italy." He found a box pierced with small holes. Placing it to his ear, he shook it in an effort to ascertain whether or not it contained an internal machine. The lid came off.

"Jumping Jehoshaphat," exclaimed Davis, explosively, when he found a gigantic tarantula roosting on his shoulder. He knocked it to the floor, where it promptly began a masterly retreat. Women clerks climbed on desks and fell over one another to escape the fuzzy peril. Never, said a veteran employee of the dead letter office, were so many silk stockings seen in the office before.

After a brief but determined search the tarantula was discovered in a pile of mail sacks, where it was killed.

The box was mailed in New York, and because of its foreign destination and its suspicious appearance, was sent here for examination.

GILDER, THE POET, DIES SUDDENLY

Author and Editor Succumbs to Heart Disease.

New York, Nov. 19.—Richard Watson Gilder, author and editor of the Century Magazine, died suddenly of heart disease.

Mr. Gilder was born at Bordentown, N. J., in 1844, at the seminary established by his father, Rev. W. H. Gilder, a Methodist minister. His contributions to literature have been recognized by honorary degrees of L.L.D. from Dickinson College, A. M. from Harvard, and L.H.D. from Princeton.

His active life divided itself into three phases: his editorial work on The Century, his writings in prose and verse and his enterprise in civic, educational and social reform, in which he was a leader. As chairman of the New York tenement house commission, first president of the New York Kindergarten association, president of the Public Art League of the United States, first vice president of the City club, member of the executive committee of the Civil Reform association, one of the founders of the Society of American Artists and the Authors' club, and one of the originators of the Copyright league, he proved himself the ally and pioneer of many good works.

His latest collection of verse, "Poems and Inscriptions," has all of those delicate, sympathetic touches in sentiment and description that have endeared Mr. Gilder's poetry to thousands of readers.

CARLISLE SAID TO BE DYING

Little Hope For Recovery of Former Secretary of Treasury.

New York, Nov. 19.—While it was stated at St. Vincent's hospital that ex-Secretary of the Treasury John G. Carlisle, who has been seriously ill there for several days, had passed a comfortable night and that no change for the worse had occurred, it is generally believed that Mr. Carlisle's condition is such that he may not recover.

It is stated that there have been consultations between Dr. Joseph D. Bryant, who was the late Grover Cleveland's physician, and eminent specialists over Mr. Carlisle's case, but that little hope of recovery for the distinguished patient has resulted.

ASTOR'S YACHT SEEN

Captain Durlie, learning on landing of the solicitude felt for the Astor party, reported that on Sunday, Nov. 14, he sighted a boat which he believed to be the Nourmahal, riding at anchor in the reef harbor of Hawk's Nest, San Salvador, the island which Christopher Columbus made famous by his landing in 1492.

MRS. STETSON PUT OUT OF CHURCH

Officially Expelled by Heads of Christian Science.

CLIMAX TO BITTER FIGHT

Charges of Working Against the Interests of the Church and Contrary to Its Teachings Declared to Be True.

Boston, Nov. 19.—The name of Mrs. Augusta E. Stetson, formerly first reader of the Christian Science church of New York, was dropped from the rolls of the Christian Science church by order of the board of directors.

It was announced that the directors have found the charges that Mrs. Stetson was working against the interests of the church, and contrary to the teachings and practices of Christian Science, to be proved and true.

The action of the directors of the mother church is the most drastic in the history of Christian Science, besides being important by reason of the standing of Mrs. Stetson, who is pastor emerita of the First Church of Christ, Scientist, of New York, where she has a large following.

The case has been watched for some months by the directors in this city, and two months ago Mrs. Stetson's card as a reader, together with those of her students, who also are readers, was removed from one of the official journals of the denomination.

Within a week Mrs. Stetson's followers in New York had rallied to her support and an investigation was held by a special committee of the New York church. This resulted in her excommunication and was immediately followed by a meeting of the members of the church, a majority of whom upheld the decision, and a movement was begun to dismiss the present first reader, Virgil O. Strickler.

A letter from Mrs. Mary Baker Eddy, the founder and head of the Christian Science faith, was read at another meeting in New York last Monday, at which action was expected against Mr. Strickler, but without a vote on the question the meeting adjourned.

Since then Mrs. Stetson has obeyed the summons of the board of directors of the mother church, and appeared before them in this city.

BLACK HAND MAKES MAN A MANIAC

Driven From Home He Becomes Violent on Train.

Saratoga, Pa., Nov. 19.—Fear of the Black Hand, whose agents drove him out of St. Joseph, Mo., by their demands for money, has driven Alfonso Scottagli crazy.

Accompanied by his wife and son when the family, bound for Italy, passed through this city, the man became so violent that three special officers were detailed to take charge of him until he reached New York.

For thirty years Scottagli worked hard in the west, accumulating considerable money. He is about sixty years old. Six months ago the Black Hand singled him out for a victim. Unwilling to part with the money earned by hard toil and privation, Scottagli's answer was that he would die in his tracks before he would pay the tribute.

But while the Black Hand did not strike terror in his heart, Scottagli worried about his wife and boy. Suddenly something snapped, and from a peace-loving citizen Scottagli became a maniac.

Hotel and Thirteen Buildings Burned.

Dunkirk, N. Y., Nov. 19.—A fire that originated in a garage in Westfield from unknown causes destroyed the Minton house, which is the principal hotel, ten of her business places and three dwellings, besides seriously damaging two other brick buildings in the heart of the business section of the village. The loss is \$150,000.

Foxes Slaughtering Game.

Pottsville, Pa., Nov. 19.—Schuykill hunters say this county is overrun with foxes to such an extent that rabbits and game birds are being daily slaughtered by the hundreds. As the bounty on foxes will not be restored for two years more, fears are entertained for the safety of all game.

Warring Tongs in 'Frisco Try to Gain Ferocity Through Food.

San Francisco, Cal., Nov. 19.—Wildcat meat is at a premium in the Chinese quarter of this city as a result of the strife between the Yee and On Yick tongs, which has caused six murders in or near San Francisco since Nov. 1. They believe that if their warriors are fed on the flesh of the wildcats the men will assimilate the ferocity of the beasts.

Butchers in Chinatown are doing a thriving trade in wildcat meat among the two clans at war.

Every prominent Chinaman connected even remotely either with the On Yicks or the Yee family is surrounded by a bodyguard of detectives whenever he appears on the streets, as it is known that the tongs have set prices on the heads of many of their enemies.

ACCIDENTALLY SHOTS SELF

Farmer Near Wilmington Instantly Killed in His Barn.

Wilmington, Del., Nov. 19.—John Woodward, aged thirty-five years, a farmer living two miles west of Brandywine Springs, accidentally shot and instantly killed himself with a shotgun.

He placed the gun on his wagon when he went to a field to haul fodder. Upon returning to the barn he grasped the gun by the barrel and pulled, when the hammer caught in a blanket and was discharged, the full load of shot entering his lung and shoulder. He died before he was able to give the men about him a message to his wife and two small children.

BATTLED FOR LIFE WITH WOUNDED BUCK

Hunter Kills Animal After Being Locked in Horns Half Hour.

Saratoga Lake, N. Y., Nov. 19.—Locked for half an hour in the horns of a slightly wounded and dangerous buck, Stephen Chalmers, well known as an author and magazine contributor, engaged in a life or death struggle in the twilight on Burn hill, eighteen miles from here.

Finally grasping with one hand his shotgun, the stock of which had been broken by a blow at the deer's head, Chalmers discharged the load into the buck's breast.

Chalmers first wounded the deer, slightly stunning it. He dropped his gun and reached for his knife to put the deer to death. It was gone, and before he could recover his gun the buck rose to its feet and charged him. Chalmers' hands were badly lacerated by the antlers of the deer, but otherwise he is none the worse for his exhausting struggle.

DERAILS CAR THAT KILLS HIM

Victim of Accident Believed to Have Come From Philadelphia.

Columbia, Pa., Nov. 19.—While he was stealing a ride on a westbound Pennsylvania railroad freight train an unidentified man fell from the platform of a car to the track, derailing the car. His left arm was cut off and his body cut in two. He was about twenty-five years old, and on a card in a pocket were the names of Leo A. Fiola, Gary, Indiana; H. M. Sweet, 7426 Pennell avenue, Chicago, and Anna Houseman, 924 Page avenue, Jackson, Mich.

The man is believed to have come from Philadelphia.

One Dead in Freight Wreck.

Newark, N. J., Nov. 19.—One man was killed and three were severely injured when two freight trains "side-swiped" each other on the Lehigh Valley railroad. Charles Anderson, of Jersey City, engineer of the west-bound train, died under the wreckage.

Chose Death to Separation.

Wahash, Ind., Nov. 19.—Joseph Bidwell and his wife, against whom he had filed suit for divorce, met at the home of a relative. Failing to reach an agreement to withdraw the suit, Mrs. Bidwell drank carbolic acid, threw herself in her husband's arms and died in a few moments.

Some folks have a prejudice against separator milk because of the residue left in the machine after the cream is taken out. The only difference between separator and ordinary skim-milk is that the fat is left in solution in the latter instead of being removed.

ADMITS ROBBING OLD MAN

Churchman Exonerated of Ranier Crime by Confession of Thief.
Burlington, N. J., Nov. 19.—No novelist, whatever his power, could desire a better theme for a story than the true narrative of the Florence, N. J., safe robbery, which reached its thrilling denouement in Judge Horner's courtroom when John Ellsworth, who was charged with the theft of \$3000 from old Schuyler Ranier, cried out: "Yes, judge, I'm guilty!"
"Do you mean," asked the judge, "that you committed this burglary and stole all the money?"
"Yes, I did it," answered Ellsworth, his voice husky and his whole frame trembling.
In saying this, Ellsworth freed William Hamilton, a worthy church member of Florence and a neighbor of Ranier, who had been accused of the crime, pilloried as a burglar before his friends of a lifetime, chiefly on the testimony of the old housekeeper at the Ranier home.

jurist for the place on the supreme bench which was held by the late associate justice, Rufus W. Peckham, of New York.

There appears to be no possibility that the name of any other man will be considered unless Mr. Taft should make inquiry and find the judiciary committee of the senate opposed to the nomination of Judge Lurton, on account of his age, which is sixty-five years. Judge Lurton, however, is as serious to be in the prime of his powers.

The possibility of an objection of the judiciary committee aside, there seems, in the light of recent events to be no reason to doubt that the Tennessee, a former Confederate soldier and a Democrat, will be Mr. Taft's first choice for high judicial honors.

TIME FOR LABOR LEADERS

Gompers, Mitchell and Morrison Grant a Stay Until November 29.

Washington, Nov. 19.—The court of appeals of the District of Columbia granted a stay until November 29 of the issuance of the mandate sending Samuel Gompers, John Mitchell and Frank M. Morrison, of the American Federation of Labor, to jail for contempt of court.

The contempt arose in connection with the Buck Stove and Range case in the supreme court of the District of Columbia.

Application for a stay was made by counsel for the defendants. In granting the order, Chief Justice Shepard stated that if the labor leaders had by November 29, the day the supreme court of the United States reconvenes, filed in that court a petition for certiorari, on application a further stay of the mandate would be granted pending the determination by the higher tribunal of the application.

Constipation Cure Free

With the first signs of constipation you resort to the home methods of relief, such as hot or cold water on arising, lots of stewed fruit with your breakfast, etc., but what do you do when these fail?

The majority then start on salts and purgative waters, change to cathartics, and so on, until they are so weak and nervous that they are unable to do their work. Now you should try just once again, but try something practical and sensible, a remedy made by a doctor, and one that is guaranteed to be permanent. Such a remedy, as thousands can testify, is Dr. Caldwell's Syrup Pepsin, which is guaranteed to be permanent. Its ingredients are such that by a brief use of it the stomach and bowels are trained to again do their work normally, so that in the end you can do away with medicines of all kinds. That it will do this Mr. G. Y. Dodson of Sanville, Va., will gladly attest, and so will Mrs. S. A. Hampton of Portage, O. To those who are still skeptical there is a way to prove these assertions without a penny of expense: Simply send your name and address to Dr. Caldwell and obtain a free sample bottle. After using it, if you are then convinced it is the remedy you need, buy a five-cent or one dollar bottle of your druggist and continue to use it for a brief time until cured. The directions are simple and the dose is small. It is pleasant to the taste, does not gripe and is promptly effective, and these statements are guaranteed or money will be refunded.

This remedy is over a quarter of a century old and is personally taken by more druggists than any other, such remedy on the American market. Because of its effectiveness, purity and pleasant taste it is the ideal laxative remedy for children, women and old folks generally. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 321 Caldwell building, Monticello, Ill.

For Sale by the People's Drug Store, Gettysburg, Pa.

H. B. Bender will have a sale of second hand furniture, Saturday, November 20.

WARSHIPS SENT TO CURB ZELAYA

Two Americans Shot as Rebels in Nicaragua.

PROMPT ACTION TAKEN

United States Will Probe the Killing to the Bottom—Revolutionists Being Executed Without Trial and Their Women Subjected to Indignities and Outrages.

Washington, Nov. 19.—The navy department ordered the Vicksburg to proceed at once to Corinto, Nicaragua, from the Pacific squadron, and the Des Moines, to Port Limon, Nicaragua, owing to dispatches received at the state department.

The United States consul at Managua reports that two American citizens, Leonard Grace and Lee Roy Cannon, of Harrisburg, Pa., have been captured with the revolutionists and shot by order of President Zelaya. The execution took place at El Castillo, near Greytown. The American consul asked President Zelaya to commute the sentences, but a reply was sharply made that the sentences were final.

Secretary of State Knox sent a diplomatic note to Senor Rodriguez, the charge d'affaires of Nicaragua in this city, demanding an explanation. The note was short and polite from a diplomatic viewpoint, but was emphatic in its dictation and significance.

Owing to the seriousness of the situation the state department has informed the Nicaraguan charge d'affaires that the intended reception to Minister Hazera has been indefinitely postponed. This probably means that diplomatic relations with Nicaragua will be severed if the investigation to be made of the shooting shows that the Americans were executed in violation of the rules of war.

The prompt action taken by the navy department has caused a very favorable impression in Washington and proves that the government intends to lose no time in probing the affair to the bottom.

One Victim a Pennsylvanian.

Nothing is known at the state department of the antecedents of Leonard Grace, who is reported to have been shot, but the other American, Lee Roy Cannon, seems to have had an unusual career in Central America. His home is in Harrisburg, Pa., but some years ago he went to Central America, and since then his name has figured prominently in revolutions in these countries.

During his career he has been arrested a number of times and tried for heading raids, and on several occasions has narrowly escaped a death sentence.

Cannon is a son of David K. Cannon, of Harrisburg, and a graduate of the Harrisburg high school. He gained local fame as a member of the football team of that school.

The revolutionist forces under General Estrada have declared the port of San Juan Del Norte, Nicaragua, under a public blockade, and general notice to that effect has been issued. In a telegram received at the state department it is stated that as a result of this action the city of San Juan Del Norte, which is said to contain 1000 Zelayans, is invested by land sea.

Reign of Terror in Nicaragua.

New Orleans, Nov. 19.—A cable from Panama says: Passengers arriving from Nicaragua report that a reign of terror exists throughout the portion of that country controlled by President Zelaya. Government troops are rounding up every person suspected of sympathy with the revolutionists and executing them without trial.

More than 500 men suspected of revolutionary sympathies have been summarily shot and the executions continue. Residences are ransacked by Zelaya's soldiers in search of incriminating letters and evidence, and when persistence is offered the houses are destroyed.

Women relatives of revolutionary sympathizers have been subjected to the most horrible indignities and outrages. Nicaraguan refugees who have arrived on the Isthmus and in Costa Rica declare it is time for the civilized powers to intervene.

Robbed His Own Father.

Pittsburg, Nov. 19.—Fear of the police aroused the conscience of eleven-year-old Leonard Silskin into a confession to his father, H. Silskin, that he had been robbing the cash drawer of the store ever since the Fourth of July. The amount taken by the boy, according to his own confession, is \$1000. Every evening Leonard came home and told his father that he had made money selling flowers and would show his father different amounts each day as his earnings.

Paid \$10,000 For a Colt.

Concord, N. H., Nov. 19.—James Y. Gatoomb, of this city, has sold to H. H. Peck, of Waterbury, Conn., for \$10,000 the two-year-old trotting colt Guy Audubon, 2:24 1-4, by Audubon Boy (1:59 1-4)—Galeaty Girl (2:15 1-4).

Family of Three Burned to Death.

Collingswood, Ont., Nov. 19.—James Daud, his wife and mother-in-law, Mrs. Fowler, were burned to death in their home near here, despite efforts of their neighbors to effect a rescue.

It is a matter of encouragement in our everyday life that it is as easy to cultivate a good habit as a bad one and a good deal more satisfactory when it comes to results.

The cost of treating ordinary fenceposts with creosote runs from 4 to 12 cents each. The posts should be dry when treated. In the case of cedar posts the period of usefulness will usually be tripled by the application of the preservative.

CLEANING OUT CUSTOM HOUSE

Six Inspectors Suspended as Result of Sugar Fraud.

75 OTHERS ARE ACCUSED

Collector Loeb Will Make a Thorough Job of the Housecleaning and Will Be Backed Up by Washington.

New York, Nov. 19.—Four customs inspectors formerly employed as assistant weighers were suspended by Collector Loeb, who at the same time suspended two other inspectors who are charged with accepting tips on

WILLIAM LOEB, JR.

the docks. The collector refused to discuss the matter. These men will be served at once with the charges against them, and the suspension will be made permanent if the charges are proved.

The four cases in which Collector Loeb acted are only the beginning of a general housecleaning in the local office. There are a large number of similar cases under consideration, and the collector is expected to act upon these within a very short time. The number of employees of the local customs service who are known to have been concerned in cheating the government grows every day, and it is now estimated that between seventy-five and a hundred men in the classified and unclassified service are to go. The names of these men and the evidence against them is now in the hands of the treasury department.

Some of the men under suspicion of cheating whom evidence has been obtained will be charged with accepting tips, but a large number are said to have been concerned in the sugar frauds. It is likely that before very long there will be radical changes in the force of weighers and others employed at the docks. In connection with the coming housecleaning, it is pointed out that Collector Loeb since taking office last spring has cut off the heads of fifty-six men employed in the local service.

Wilbur F. Wakeman, former appraiser of this port, returned from Washington, where he had a long talk with Secretary of the Treasury MacVeagh, during which the sugar inquiry was gone over at length. According to Mr. Wakeman, the housecleaning will be a very thorough job. He said: "I believe that Secretary MacVeagh will clean up the service as it has never been cleaned up before. I talked with him about the whole situation, and I know that he will stand by Collector Loeb absolutely."

FORCE SUFFRAGETTE TO EAT

Miss Alice Paul, of Morristown, N. J., Being Pump-Fed in London Jail.

London, Nov. 19.—Miss Alice Paul, of Morristown, N. J., the American suffragette who was sentenced to serve a month's imprisonment in Holloway jail for making a scene at the lord mayor's banquet on November 10, has refused to take food and is being forcibly pumped-fed. A fellow prisoner who has just been released says the shrieks of Miss Paul as she is being fed can be heard all over the building.

Child's Cry Saves Mother.

Williamsport, Pa., Nov. 19.—Aaron Stutzman, for the warning cry of his little daughter, would have shot and probably killed his wife. The family had a burglar scare and a search was under way on the premises. Mrs. Stutzman ventured outside, but ran into the house on hearing a noise. Her husband was about to fire when the child's cry prevented the tragedy.

Is Your Shovel Worn Out?

The price of a new shovel is a small matter. But are you going on forever shoveling into a furnace twice as much coal as is really needed to heat your house—and then shoveling out twice as many ashes? Ashes are expensive, because coal is expensive. You can't afford to let one shovelful of coal get away without getting its full content of heat out of it, and into the air of your house. You can do this easily, safely and surely with the

MODEL Heating System

It thoroughly consumes every pound of coal, leaving nothing but fine white ashes. By a scientific plan of circulation, it gets the heat from the fire and distributes it, through steam or hot water radiators, with remarkable efficiency. As a result it will keep the whole house comfortable day and night, in all weather, and save one-third to one-half of the coal ordinarily consumed. It is doing this now in thousands of homes. Look into it at once.

THE LEDOM RANGE

The Ledom is as good a kitchen range as the Model is a heating system—which is saying a great deal. Its grate alone saves half of the usual coal consumption, and makes it the ablest, quickest, most convenient range ever built. Don't fail to see it.

The hookworm is said to be responsible for a malady which has lately appeared in some sections of the south, the students of two well known colleges especially being mentioned as afflicted with the disease, which takes the form of extreme listlessness and laziness, interfering with both studies and athletics. Numerous isolated instances of the symptoms of this malady have been noted for several generations past, but not until recently has it seemed to invade whole communities.

With a serious problem confronting them in the matter of securing satisfactory indoor help, a good many sensible women having a hand in houses to be constructed are seeing to it that they are of sufficiently modest size and design so that on a pinch they may be cared for without any outside help. This tendency toward simpler house building has much to commend it apart from the consideration of hired help.

20 Years With Heart Trouble

"Dr. Miles' Heart Remedy has cured me of heart disease of over 20 years' standing. I was so bad that I could not do my work, and could scarcely draw a full breath without fainting or smothering. The doctor told me he could do no more for me; then I commenced taking the Heart Remedy. I shall never forget that night. I slept better than I had before in months. I kept right on getting better, until I was perfectly well."

MRS. LAURA RUSSELL,
Logan, Iowa.

When the heart action is weak, it fails to pump the blood through the lungs with sufficient rapidity. Then the lungs do not absorb the proper amount of oxygen, although they may be taking in a normal amount of air. The result is shortness of breath, smothering spells, difficult breathing, oppressed feeling in chest. Dr. Miles' Heart Remedy strengthens the heart nerves and muscles, and in this way increases the circulation.

Get a bottle from your druggist. Take it according to directions, and if it does not benefit he will return your money.

Give the cows a grain ration every day.

This extra food will be more than paid for every day in the increased amount of milk and, besides, the droppings will be so enriched that the pastures will be fertilized sufficiently to pay for the extra grain.

Be sure that the cows have all the pure, clean water they can drink without walking long distances for it.

In the opinion of some, the quantity of water drunk by a cow is an important test of her value as a milker. Milk that is well cooled and carefully strained will keep much longer than that which is not thus treated.

Pasture will produce more milk than sowing on rye, alfalfa or oats, but when the grass begins to fall it is well to have silage to fall back on.

Invite your city customers out to see how you make the butter they buy of you. They will think more of you after that—if you have everything in apple pie order.
